REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: regarding the claims, the prior art does not show or teach a system or method comprising an assembly applying or a step of generating the first magnetic field parallel to the substrate via an assembly and the alternating field perpendicular to the substrate and a mechanism for applying or the step of applying a stress to the substrate oriented parallel to the substrate as recited in the claims and in combination with the other features of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US6664783, US5721488, US4310798 and US3336154 each teach varying structures and method for determining magnetostrictive values/constants for specified magnetic materials.
